---

**Lauren Geaney, MD**

Dr. Lauren Geaney is a fellowship trained foot and ankle surgeon and assistant professor of orthopedic surgery at the UConn Musculoskeletal Institute at UConn Health. She completed both her medical training and orthopedic training at UConn. Dr. Geaney then completed her foot and ankle fellowship at Mercy Medical Center in Baltimore, Maryland under the leadership of Dr. Mark Myerson.

**Elizabeth Martin, MD**

Dr. Elizabeth Martin is a board certified, fellowship trained Orthopaedic Surgeon in the Brigham Division of Foot and Ankle and a member of the faculty at Harvard Medical School. She specializes in complex reconstructive surgery of the foot and ankle. Her clinical interests include foot and ankle trauma, post-traumatic pain, sports injuries, foot and ankle arthritis and deformities such as painful flatfoot and bunions. Her research interests include foot and ankle trauma, improving quality of life for foot and ankle patients and orthopaedic education.

**Bopha Chrea, MD**

Dr. Chrea is a fellowship trained and board-certified orthopaedic surgeon on faculty at UI hospital & Clinics with sub-specialized expertise in foot and ankle disorders. Following her residency at the University of Mississippi, she underwent fellowship training in foot and ankle surgery at Hospital for Special Surgery in New York City. Her research interests include ankle arthritis and Charcot-Marie-Tooth Disease.

**Elizabeth Cody, MD**

Dr. Elizabeth Cody completed her orthopedic surgery residency at HSS after receiving her undergraduate degree from Princeton and her medical degree from Columbia University's College of Physicians and Surgeons. She completed a fellowship in foot and ankle surgery at Duke University, where she worked with world-renowned surgeons and assisted on many complex surgeries throughout the foot and ankle, including more than 70 total ankle replacements. She has experience treating foot and ankle arthritis, foot and ankle injuries, ankle instability, and congenital and acquired foot deformities, including flatfoot and hallux valgus (bunion) deformities. As a Division I collegiate rower and lifelong athlete, she has a particular interest in treating athletes.

## The Mission of Paragon 28®

Our mission is to strategically build a company around the core principles that **drive innovation and quality**. Relentlessly working to advance the science behind foot and ankle surgery.

## Paragon 28® History

In 2010, Paragon 28® was established as an orthopedic foot and ankle company. The name "Paragon 28" was chosen to show that we are exclusively a foot and ankle company, with the "28" representing the number of bones in the foot. We will remain true to that vision. Paragon 28 was started as a small, family-based company and we have kept those core ideals as we have grown.

Our first product was the Monster® Screw System, followed by the Gorilla® Plating System. As we continue to add more products, we maintain a fine level of detail to every feature of every product we design. The goal is to give options to the foot and ankle surgeon, knowing there is more than one way to achieve a great result. We have listened to surgeons and will continue to do so in order to understand and address their specific needs.
